

FOR IMMEDIATE RELEASE

Arcopédico Lightweight, Breathable and Machine-Washable Summer Sandals & Flats Offer All-Day Arch-Comfort

SPARKS, NV (February 21, 2012) – With sweaty feet, kicked-up dirt, and long days of travel, summer adventures can leave shoes and feet less than fresh and comfortable. **Arcopédico lightens the load with lightweight, anti-microbial, breathable, and machine-washable comfort shoes, available in seasonally appropriate sandals and flats.**

Arcopédico's patented Lytech line as well as its knit shoes and sandals fight off sticky soles and soiled uppers with the help of washable and breathable fabric and Sansmell™ antimicrobial technology.

Providing the foundation feet need for comfortable and ache-free summer outings, the shoes boast anatomically-designed, twin-arch and circulation-supporting designs.

The **Sasha** sandal (above, MSRP: \$79), for example, offers a cool, comfy slip-on for summer with its knit upper and 1 1/4-inch heel. The soft, cushioned sole and twin-arch design ensure easy, breezy foot comfort on the hottest days.

Light as a feather, the flat **L2** ballerina slipper (at left, MSRP: \$79) is perfect for sight-seeing or for packing into a carry-on. The flexible Lytech fabric conforms to the shape of the foot and allows healthy circulation for ultimate comfort all day long.

The **L14** slip-on (at right, MSRP: \$89), with its decorative design and ultra-cozy Lytech exterior, is an excellent choice for walks on the boardwalk or after a day at the gym. The flexible, machine washable, vegan and biodegradable fabric also leaves a small “footprint” due to its BioCalce certification as an environmentally-friendly shoe.

[Arcopédico](#) shoes can be purchased at independent shoe stores throughout the U.S. Simco Imported Shoes, Inc. is the sole U.S. distributor of **Arcopédico** shoes. Arcopédico is located at 1480 Kleppe Lane, Sparks, NV 89431. For more information, contact the company at (775) 322-0492, or visit www.ArcopedicoUSA.com.
