

## Outfit Bikes for “National Bike Month” with BOB® Trailers and Accessories *Beef Up Bicycle Commuter Gear with Trailers, Bags and other Cycling Essentials*

Giving up the car for National Bike Month (May 2012) may sound like a challenge. [BOB](#), manufacturer of the first single-wheeled [bicycle trailers](#), helps make bicycle commuting easy and convenient with trailers and accessories that turn two-wheel transportation into a fully-outfitted adventure. Gear-up for May 2012 with these BOB bicycle add-ons:

### **BOB Yak Trailer**

Setting the standard for all others to follow it, the original, tough, dependable Yak Trailer carries up to 70 pounds and attaches to most bicycles’ rear wheel hubs, creating a low and stable center of gravity with excellent aerodynamics.

### **BOB Ibex Trailer**

With its rugged, three inches of adjustable suspension travel, the Ibex trailer will follow a bike to the ends of the earth. Ride single track, riverbeds and washboarded roads with the Ibex faithfully towing gear, tools and supplies.

### **BOB Dry Sak**

Created specifically for the Yak and Ibex trailers, the BOB Dry Sak fastens into the trailer frame quickly and easily. Completely waterproof, it protects your valuable cargo from rain, wind, errant sprinklers, and other surprises.

### **Tool Rax**

This lightweight, durable rack system holds up to four full-size tools. Haul shovels, picks, rakes and other tools for the work-day, or for a day of *trail* work.

BOB formed in 1994 as the first manufacturer of single-wheeled bicycle cargo trailers. Creator of the original YAK and suspension-equipped IBEX, the company facilitates bike travel, touring and commuting by offering quality, dependable trailers. As BOB’s founders became fathers, they designed and developed the first Sport Utility Stroller in 1998 and now offer a complete line of popular strollers that help support active family endeavors.
