Save Skin from Summer Damage with Exfoliating Control Corrective Cucumber Bead Cleanser

Refreshing Cleanser Keeps Skin Soft and Moisturized During the Sunny, Dry Season

Irvine, CA (May 23, 2012) – Skin gets maximum exposure during the summer months, so keep it hydrated, fresh and showoff-worthy well into fall with [Control Corrective's Cucumber Bead Cleanser](#) – a gentle, deep-cleaning exfoliator that sloughs off dry, sun-kissed skin and moisturizes with grape seed oil for a healthy glow.

Ideal for women and men as a post-beach body polish or pre-shave, the paraben-free formula contains tiny circular beads that efficiently exfoliate pore-clogging oils and cellular debris while killing bacteria.

A refreshing alternative to drying soaps, the crisp, aromatic cleanser does damage control on the long, dehydrating days of summer, keeping skin supple with **nourishing grape seed oil**. This buzzed-about ingredient packed with powerful antioxidants provides protection from collagen- and elastin-destroying enzymes and helps repair sun damage.

“The Cucumber Bead Cleanser offers year-round benefits, but is especially crucial during the summer and post-summer seasons when skin has been exposed to excessive warmth, humidity and sun,” said Ellen Clark, founder and president of Control Corrective. “It’s a spa-like skincare treat following an afternoon at the pool or just a long day at the office.”

For best results, simply apply a small amount to pre-moistened fingers, lightly massage into skin and rinse.

Control Corrective Cucumber Bead Cleanser is available for purchase in a 6.7-ounce container for \$24 at www.controlcorrective.com and at fine spas and salons nationwide.
