Stop Seasonal Skin Dryness with Quenching Formulas from Control Corrective Skincare Systems®

A smart after-summer regimen keeps skin hydrated and prepped for colder conditions

Irvine, CA (August 23, 2012) – As the warm days of summer and early fall come to a close and cooler conditions commence, skin can get stuck in a holding pattern of seasonal dryness. **Refresh sun-parched skin and prepare it for dehydrating days ahead with [Control Corrective Skincare Systems’](#) paraben-free [Smoothing Repair Gel](#) and [Balancing Thermogel Mask](#) – a rejuvenating regimen for a thirsty complexion.**

“It’s typical to associate summer with moisture-zapped skin, but fall and winter really offer no reprieve, as cold weather can be especially drying and irritating,” said Ellen Clark, president of Control Corrective. “As warm weather wanes, now’s the time to press the ‘reset’ button and restore healthy skin with a solid skincare routine.”

A super exfoliator, **Control Corrective Smoothing Repair Gel** brings skin back to its spring-like glow. Unlike some harsh scrubs, this gentle formula minimizes fine lines, wrinkles and uneven pigment without discomfort or dehydration. Ideal for all skin types and an essential regimen add-on for the 30-plus crowd, the Smoothing Repair Gel can be massaged into the skin once or twice daily. MSRP: \$44 (1.7 oz.)

A re-hydrator that successfully reboots skin after sun exposure, **Control Corrective Balancing Thermogel Mask** soothes, nourishes and offers deep hydration in a simple, seven-day recommended regimen. The cool and calming formula takes away tightness and brings comfort back to out-of-balance, overly dry and flaky skin. MSRP: \$28 (2.5 oz.)
