## ◀ SERUM 16

Featuring 16 percent LG-Retinex, an encapsulated blend of retinol and retinaldehyde exclusive to CosMedix, Serum 16 has been clinically proven to reduce the appearance of sun damage, age spots, and deep lines without irritation. [www.cosmedix.com](http://www.cosmedix.com)

## ▶ SKIN ACTIVE LINE LIFT

This new offering from NeoStrata features professional strength Aminofil, a new tyrosine amino acid derivative that delivers a rapid volumizing effect in the deep-skin matrix to visibly reduce facial lines and wrinkles. [www.neostrata.com](http://www.neostrata.com)

## ▶ MARINI PEEL SYSTEMS

These new in-office systems from Jan Marini Skin Research pair clinical-strength peels with concentrated retinol, peptides, and antioxidants to jumpstart the healing process and enhance results. The three systems include the Refine Peel, the Clarify Peel, and the Transform Peel. [www.janmarini.com](http://www.janmarini.com)

## ▼ EGF SERUM 30

This serum from Control Corrective Skincare Systems contains multiple epidermal growth factors that absorb deeply into skin cells to minimize the signs of aging and sun damage and dramatically improve the skin's texture and elasticity. [www.controlcorrective.com](http://www.controlcorrective.com)

## ◀ CLINICAL COLLECTION

Sesha Skin Therapy's new CLINICAL Collection, which incorporates the clinically proven Permeation Enhancement Technology (P.E.T.) delivery system, helps reduce the appearance of wrinkles, hydrates and smoothes the skin's appearance, and promotes younger looking skin.
