Coral LLC® New Coral Mag Fizz Brings Powerful Magnesium-Potassium Duo to Any Drink

*Great-tasting, “fizzy” formula helps support nerve and muscle function, may facilitate muscle cramp relief**

CARSON CITY, NV (October 28, 2015) – Muscle cramps “cramping” your style?

Make sure your magnesium and potassium intake is on point with new [Coral LLC Coral Mag Fizz](#) – a tasty beverage enhancer that provides an ideal daily measure of the powerful essential mineral duo known to provide muscle cramp relief.*

Available in a delectable and effervescent natural lemon-lime flavor, Coral Mag Fizz conveniently adds 300 mg (75% DV) of magnesium and 500 mg potassium (14% DV) to your drinking water or favorite beverage.

An important combination in combatting painful leg cramps that affect mobility and rest,* magnesium plays an important role in the healthy functioning of nerves and muscles* and may be a contributing factor to maintaining strong bones by helping the body absorb calcium and potassium.* Potassium assists in regulating the body’s water balance, which is essential to healthy nerve and muscle functions.*

“Our new Coral Mag Fizz is a tasty way to secure a daily dose of magnesium and potassium, which can provide a multitude of healthful benefits for the body, both independently and in tandem,” said Jason DeWitt, managing partner of Coral LLC. “Our gentle and effective formula is fast-absorbing, preservative-free and sugar-free, and proudly made in the United States.”

New Coral Mag Fizz is available in a 6.4-ounce container (30 servings) for \$19.95. Visit www.coralcalcium.com to purchase or locate a nearby retailer.

Coral LLC, the leading brand of coral minerals, is the original coral calcium mineral company in the U.S., using only EcoSafe™ above-sea coral in its products. The company is located at 5576 Bighorn Drive, Carson City, NV.
